

1 Instruções

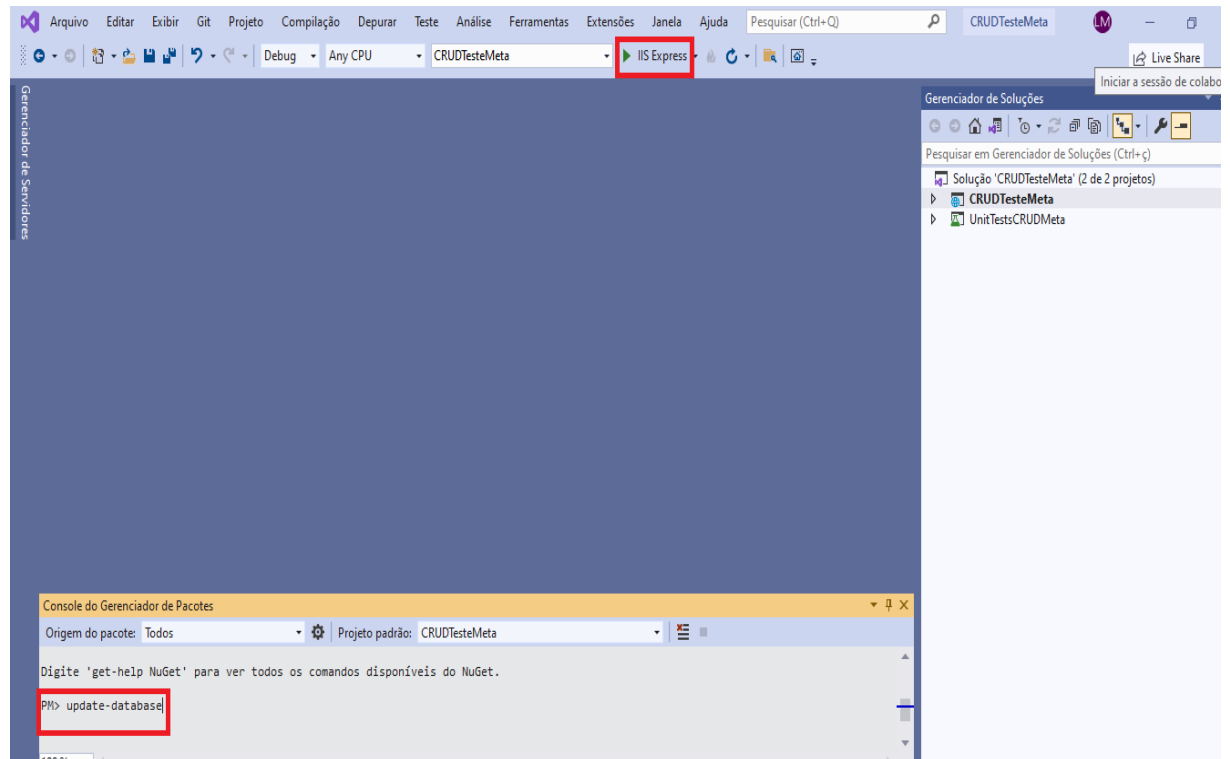

- Atualizar string de conexão por meio do arquivo “appsetting.json”.

- Acessar menu Ferramentas → Gerenciador Pacotes do NuGet → Console do Gerenciador de Pacotes

- Inserir comando “update-database” no console do gerenciador de pacotes e pressionar tecla “Enter”. Após executar solução.

- Acionar menu “Trucks”.

- Permitido visualizar apenas “FH” e “FM”. Não permitido “FMX”, “VM”, “Fora de Estrada” e “Semi Novos”.
